## **Report of Independent Auditors**

Management and the Board of Directors  
Cooperative for Assistance and Relief Everywhere, Inc.

### **Report on the Financial Statements**

We have audited the accompanying consolidated financial statements of Cooperative for Assistance and Relief Everywhere, Inc. and subsidiaries (CARE USA), which comprise the consolidated balance sheets as of June 30, 2018 and 2017, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended and the related notes to the consolidated financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these consolidated financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free of material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the 2017 financial statements of Access Africa Fund LLC, a majority owned subsidiary, which statements reflect total assets constituting 3%, total liabilities constituting 7% and net assets constituting 1% as of June 30, 2017 and total revenues constituting less than 1% for the year then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Access Africa Fund LLC for 2017, is based solely on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The 2017 financial statements of Access Africa Fund LLC were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, based on our audits and, for 2017 the report of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of CARE USA and subsidiaries as of June 30, 2018 and 2017, and the consolidated changes in their net assets and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

### ***Supplementary information***

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we also have issued our report dated November 16, 2018 on our consideration of CARE USA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of CARE USA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering CARE USA's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads 'Ernst &amp; Young LLP'.

CARE USA and Subsidiaries  
Consolidated Financial Statements

## 1. Organization, Mission and Structure

### Mission

The Cooperative for Assistance and Relief Everywhere, Inc. (CARE USA or the Organization) is an international humanitarian organization delivering emergency relief and long-term international development programs. CARE USA's mission is to work around the globe to save lives, defeat poverty and achieve social justice. CARE USA operates programs in more than 40 countries throughout Africa, Asia, Europe, and Latin America.

CARE USA's program activities were comprised of the following for the fiscal years ended June 30, 2018 and 2017:

- **Development.** CARE USA and partners provide innovative solutions for sustainable development through supporting new ways of supplying or strengthening essential service delivery, building capacity, building resilience for reducing risk, and empowering the most vulnerable, particularly women and girls. For the years ended June 30, 2018 and 2017 development work represented 61% and 62%, respectively, of total program expenses.
- **Humanitarian.** In times of conflict or disaster, CARE USA responds to save lives, with special attention to the needs of women and girls and the most marginalized. CARE USA's humanitarian action includes preparedness and early action, emergency response and recovery, and encourages future resilience and equitable development. For the years ended June 30, 2018 and 2017 humanitarian work represented 37% and 36%, respectively, of total program expenses, reflecting ongoing conflicts and natural disasters in countries that we operate. For fiscal 2018, our largest humanitarian efforts were in Ethiopia, Syria, Yemen and Somalia.
- **Public Information.** CARE USA aims to inform the public about poverty, the systematic discrimination and marginalization of women and girls around the world. CARE puts women and girls in the center based on the belief that poverty cannot be overcome until all people have equal rights and opportunities. Public information represents 2% of total program costs for both years.

Within these broad areas, CARE USA has a special focus on food and nutrition security, women's economic empowerment, sexual and reproductive health and rights and other sectors.

### Structure and Related Parties

CARE USA is a member of CARE International, an organization that coordinates various agreed upon functions and activities common across the membership, including program activities in certain cases. In the regular course of its operations, CARE USA receives and provides funding through grants and other contributions to and from CARE International and member organizations. Support from CARE International members, as well as amounts due to and due from members, are disclosed in the accompanying consolidated financial statements.

## CARE USA and Subsidiaries Consolidated Financial Statements

The accompanying consolidated financial statements of CARE USA include the assets, liabilities, revenues and expenses of all wholly-owned subsidiaries, majority owned subsidiaries and related entities over which CARE USA exercises control and has an economic interest. The general condition for control is ownership or a majority of the voting interests of an entity. All intercompany accounts and transactions have been eliminated from the consolidated financial statements. CARE USA makes up more than 99% of the net assets in the accompanying consolidated balance sheets.

### 2. Summary of Significant Accounting Policies

#### Basis of accounting

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP). Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

Net assets are classified based on the existence or absence of donor-imposed restrictions. Accordingly, CARE USA's net assets and changes therein are classified and reported as follows:

- Permanently restricted assets – represent the dollar amount of gifts, subject to donor imposed stipulations, to be invested in perpetuity by the Organization unless action by the donor or courts removes the restriction. The income on permanently restricted net assets is available for the purpose specified by the donor.
- Temporarily restricted assets – represent gifts, including promises to give and trusts, as well as income and gains that can be expended, subject to donor stipulations that permit the Organization to use or expend the assets as specified. The restrictions are satisfied either by the passage of time or actions of the Organization. Upon satisfying the requirements, temporarily restricted net assets are reclassified to unrestricted net assets and are reported in the consolidated statements of activities as satisfaction of program restrictions.
- Unrestricted net assets – all remaining net assets of the Organization and subsidiaries that are not subject to donor imposed stipulations. Unrestricted net assets include \$2.4 million related to Access Africa Fund LLC (AAF) which are not available for use by CARE USA.

#### Use of Estimates and Assumptions

The preparation of consolidated financial statements in conformity with US GAAP requires management to make certain estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Areas of estimates and judgement include (1) receivables and the allowance for doubtful accounts; (2) fair value of split interest agreements and investments; and (3) assessment of loss contingencies. Actual results may differ from those estimates.

## CARE USA and Subsidiaries Consolidated Financial Statements

### Functional Allocation of Expenses

CARE USA allocates expenses based on nature and function among its various programs and supporting services. Expenses that can be identified with a specific program or support service are charged directly. Other expenses that are common to several functions are allocated by various statistical bases.

### Revenue Recognition

#### Contributions

Contributions are recorded as revenue at fair value when an unconditional promise to give has been made. Conditional promises to give are not included as revenue until such time as the conditions are met. Contributions are recorded as unrestricted, temporarily restricted or permanently restricted, depending on the existence or absence of donor imposed restrictions.

Conditional promises to give were \$8.6 million as of June 30, 2018. There were no conditional promises to give as of June 30, 2017. Revenue recognition for these gifts are contingent upon specific and quantifiable deliverables and meeting match requirements.

#### Grant Revenue

Funds provided under grants or contracts are deemed to be earned and reported as revenue when the program expenditures have been incurred and is reflected as either US government, CARE International or other grants and contracts in the consolidated statements of activities. Direct support from US government agencies is subject to independent audit under the Office of Management and Budget's Single Audit guidelines found in 2CFR200 and subject to review by grantor agencies.

These audits and reviews could result in the disallowance of expenditures under the terms of the grant or reductions of future grant funds. Based on prior experience, management believes that any costs ultimately disallowed would not materially affect CARE USA's consolidated financial position.

#### Nonfood Gifts-in-Kind

Donated goods and services that meet the criteria for recognition are recorded at estimated fair value when received and recorded as expense when utilized. Contributions of non-financial assets consist of public service announcements and donated professional services. CARE USA recognized total contribution revenue of \$4.5 million and \$3.7 million for public service announcements and donated professional services for the years ended June 30, 2018 and 2017, respectively.

#### Receivables

Receivables represent grants and contracts receivables, ocean freight receivable, and amounts due on unconditional promises to give. Grants and contracts receivable are generally expected to be collected within one year and are recorded at net realizable value. Ocean freight receivables and a corresponding liability due to the freight line are recorded when agricultural commodities are shipped to their destination port. These amounts are due from USAID.

Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at fair value based on the present value of their estimated future cash flows and discounted at an applicable rate in the year the pledge was made. The discount on those amounts is computed at the rate commensurate with the risks involved.

CARE USA and Subsidiaries  
Consolidated Financial Statements

Cash and Cash Equivalents

Cash and cash equivalents consists of short-term, highly liquid investments with original maturities of three months or less when purchased. The carrying values of cash and cash equivalents approximate their fair value due to the short-term nature of these instruments. CARE USA maintains amounts on deposit with various financial institutions, which may, at times, exceed federally insured limits.

Management periodically evaluates the credit-worthiness of those institutions and has not experienced any losses on such deposits.

Cash amounts maintained overseas are largely uninsured. Cash and cash equivalents held in the United States were \$21.5 million and \$15.7 million, including \$196,000 of restricted cash, as of June 30, 2017. Cash and cash equivalents held outside the United States were \$42.5 million and \$39.2 million, as of June 30, 2018 and 2017, respectively. Certain donors require cash be held in separate accounts which is available for current use. Donor segregated cash accounts totaled \$14.6 million and \$14.3 million as of June 30, 2018 and 2017, respectively.

Restricted cash included cash and cash equivalents pledged by AAF as collateral for hedging instruments and cash held for the purpose of serving as a debt service reserve for AAF's credit facility. Restricted cash is held at cost, which approximates fair value.

Program advances and other assets

Program advances and other assets include sub-grantee advances to partner organizations and CARE International members, program advances to project managers, inventory, equity investments, receivables from CARE International members, prepaid expenses and other miscellaneous assets.

Sub-grantee advances are recorded when cash is disbursed to the partner organization or CARE International member. As the sub-grantee performs its contractual obligations in accordance with the grant objectives and expense reports are received, the receivable is reduced and the related income and expense are recognized.

Inventories are stated at lower of cost or market or net realizable value and include supplies and agricultural commodities. Cost is determined using the weighted average method. CARE USA receives agricultural commodities for distribution via projects or monetization with the cash proceeds to be used in projects. Inventory includes all agricultural commodities in which title has passed to CARE USA regardless of whether the agricultural commodities are in transit from the United States or held in storage in primary warehouses at the intended recipient country. For agricultural commodities to be distributed, revenue and expense are recognized when the agricultural commodities are distributed or the title is transferred to a partner organization. For agricultural commodities to be monetized, revenue and expense are recognized when the proceeds are utilized for the related project activities.

As of June 30, 2018 and 2017, CARE USA had a 34.4% non-controlling interest in MicroVest General Partner Holding Company and 8.3% in MicroVest II Limited Partnership. The investments are accounted for using the equity method.

CARE USA and Subsidiaries  
Consolidated Financial Statements

#### Split interest agreements

CARE USA is a beneficiary of various split interest agreements and bequests such as perpetual trusts, charitable lead trusts, charitable remainder trusts and charitable gift annuities. CARE USA recognizes contributions, assets and liabilities received under split interest agreements at fair value. Interest earned on split interest agreements is also recognized at fair value. Subsequent contributions from split interest agreements are recorded at the fair value of the trust assets less the present value of the estimated future payments to be made to the other beneficiaries under specified terms of the trust. The present value of the estimated future payments was discounted using an investment rate of return and a discount rate of 7.0% for the years ended June 30, 2018 and 2017.

#### Investments

Investments are stated at fair value. CARE USA's investments are diversified across strategies, managers and geography. There are no significant concentrations of market risk in as much as the investment portfolio is diversified among issuers. Management fees and expenses of \$240,000 and \$158,000 are netted against interest and dividend income for the years ended June 30, 2018 and 2017, respectively.

#### Property and equipment

Land, buildings and equipment are recorded at acquisition cost or estimated fair value on date of contribution. Depreciation is provided on the straight-line basis over the estimated useful lives of the assets. The estimated useful lives by asset class are as follows:

Asset	Estimated Useful Life
Buildings	25 years
Building improvements	7 years
Software	3 to 10 years
Equipment	3 to 5 years
Leasehold improvements	Shorter of 5 years or life of the lease

CARE USA does not imply time restrictions on contributions of long lived assets (or of other assets restricted to the purchase of long lived assets) received without donor stipulations about how long the contributed assets must be used. As a result, contributions of cash and other assets restricted to the acquisition of long lived assets are reported as temporarily restricted revenue that increases temporarily restricted net assets; those restrictions expire when the long lived assets are placed in service.

#### Deferred revenue

Deferred revenue represents payments received in advance for services which have not performed or goods which have not yet been delivered.

#### Foreign currency translation

The US dollar is the functional currency for CARE USA's operations worldwide. Transactions in currencies other than dollars are translated into US dollars at the rates of exchange in effect during the month of the transaction. Current assets and liabilities denominated in non-US currency are translated into US dollars at the exchange rate in effect at the date of the consolidated balance sheets. Property and equipment purchased with non-US currency are translated into US dollars at the exchange rate in effect at the time of purchase. Net transaction and translation gains and losses are included in the

## CARE USA and Subsidiaries Consolidated Financial Statements

accompanying consolidated statements of activities in investments income and other gains and losses as foreign exchange gains or losses.

### Fair Value of Financial Instruments

CARE USA's financial instruments consist of cash and cash equivalents, restricted cash, investments, receivables, split interest agreements, accounts payable and accrued expenses, liability for split-interest agreements and subsidiary loans payable. Receivables are recorded at net realizable value which approximates fair value. Investments and split interest agreements are recorded at their fair values. The liability for split interest agreements is recorded at net present value which approximates fair value. All other financial instruments are stated at cost which approximates fair value.

### Tax status

CARE USA is a tax-exempt organization under Section 501(c) (3) of the US Internal Revenue Code (IRC) and is therefore exempt from federal taxation under Section 501(a) of the IRC. In addition, under IRC Section 509(a) (1), CARE USA is a public charity and, thus, donations to CARE USA qualify for the maximum allowable charitable deduction. CARE USA's subsidiaries MOFAD and CIT are tax-exempt in the countries they are incorporated. AAF is a limited liability corporation treated as a partnership for federal income tax purposes in the USA; and CARE Enterprises is taxable in the USA. CAN is tax exempt in the USA under IRC Section 501(c)(4).

### Subsequent Events

Subsequent events have been evaluated through November 16, 2018, the date the financial statements were issued. There were no subsequent events that required recognition or disclosure in the consolidated financial statements.

### Recently Issued Accounting Standards

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606) superseding the guidance in former ASC 605, Revenue Recognition. It requires entities to recognize revenue based on the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new guidance will be effective for the fiscal year ending June 30, 2020 for CARE USA. The impact of this standard on CARE USA's consolidated financial statements is being evaluated.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), which replaces existing lease accounting guidance. The new guidance is intended to provide enhanced transparency and comparability by requiring lessees to record right-of-use assets and corresponding lease liabilities on the balance sheet for all leases with the terms exceeding twelve months. The standard requires applying modified retrospective approach at the beginning of the earliest period presented with optional practical expedients. The guidance is effective for the year ending June 30, 2021 and early adoption is permitted. There will be an increase in assets and liabilities on the consolidated balance sheets of CARE USA as a result of adoption to this standard due to recording of right-of-use assets and corresponding lease liabilities, the amount will depend on the lease portfolio at the time of the adoption. CARE USA does not expect the adoption to have a material impact on the consolidated financial statements.

CARE USA and Subsidiaries  
Consolidated Financial Statements

In August 2016, the FASB issued ASU 2016-14—Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities, which makes several improvements to current financial reporting for not-for-profits. The most significant provisions of this standard require two classes of net assets, rather than the currently required three classes. This guidance is effective for annual financial statements issued for the year ending June 30, 2019. As this standard is primarily related to changes in disclosure and presentation, adoption is not expected to have an impact on CARE's financial position.

In June 2018, the FASB issued ASU 2018-08 Not-for-Profit Entities (Topic 958-605) clarifying the accounting guidance for contributions received and contributions made to further improve the scope and the accounting guidance on revenue recognition, to assist entities distinguish between contributions (non-reciprocal) and exchange (reciprocal) transactions and to determine whether a contribution is conditional. The effective date of the amendment is fiscal year ending June 30, 2020. The impact of this standard on CARE USA's consolidated financial statements is being evaluated.

### 3. Description of Net Assets Designation and Restriction

The donor-imposed restrictions listed under temporarily restricted and permanently restricted net assets as of June 30 are listed below:

	2018		2017	
	Temporarily Restricted	Permanently Restricted	Temporarily Restricted	Permanently Restricted
Third party trusts	\$ -	\$ 119,954	\$ -	\$ 117,702
Sexual, reproductive and maternal health and a life free from violence	67,807	28	44,319	28
Humanitarian action	-	6,179	-	6,179
Food and nutrition security and resilience to climate change	19,347	438	21,329	438
Women's economic empowerment	33,109	3,303	39,979	3,185
Multi-sector and other	47,140	12,082	37,321	12,077
Time restricted	57	-	295	-
Total	<u>\$ 167,460</u>	<u>\$ 141,984</u>	<u>\$ 143,243</u>	<u>\$ 139,609</u>

Generally, income from third party trusts and endowments is available for unrestricted purposes.

Consolidated Financial Statements

4. Investment income and other gains and losses

Investment income and other gains and losses was comprised of the following for the years ended June 30, 2018:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Interest and dividends, net	\$ 2,011	\$ 2,843	\$ –	\$ 4,854
Net realized and unrealized gains on investments	2,872	972	–	3,844
Increase in value of split interest agreements	571	92	2,370	3,033
Foreign exchange gain	1,341	–	–	1,341
Minority interest in subsidiary income	39	–	–	39
	<u>\$ 6,834</u>	<u>\$ 3,907</u>	<u>\$ 2,370</u>	<u>\$ 13,111</u>

Investment income and other gains and losses was comprised of the following for the years ended June 30, 2017:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Gain on deconsolidation of subsidiary, net	\$ 4,798	\$ –	\$ –	\$ 4,798
Interest and dividends, net	2,418	2,089	–	4,507
Net realized and unrealized gains on investments	2,373	3,378	–	5,751
Increase (decrease) in value of split interest agreements	141	(109)	6,830	6,862
Foreign exchange loss	(827)	–	–	(827)
Minority interest in subsidiary income	121	–	–	121
	<u>\$ 9,024</u>	<u>\$ 5,358</u>	<u>\$ 6,830</u>	<u>\$ 21,212</u>

CARE USA and Subsidiaries  
Consolidated Financial Statements

5. Split interest agreements

Split interest agreements assets, recorded at fair value, were comprised of the following as of June 30:

	2018	2017
Perpetual trusts	\$ 125,196	\$ 122,739
Charitable lead trusts	10,611	10,968
Other	2,292	2,939
	<u>\$ 138,099</u>	<u>\$ 136,646</u>

Liability for split interest agreements, recorded at present value, were comprised of the following as of June 30:

	2018	2017
Charitable gift annuity payable	\$ 9,891	\$ 11,117
Other	1,609	1,714
	<u>\$ 11,500</u>	<u>\$ 12,831</u>

Perpetual trusts

CARE USA is the beneficiary of certain perpetual irrevocable trusts held and administered by independent trustees. Under the terms of the trusts, CARE USA has the irrevocable right to receive the income earned on the trust assets in perpetuity. Perpetual trusts are initially recorded as permanently restricted contributions from split-interest agreements at fair value based on CARE USA's interest in the fair value of the underlying trust assets at the time of the gift. Subsequent changes to the trust's fair value are reported as permanently restricted increases (decreases) in the fair value of split interest agreements. Income received from these trusts is reported as temporarily restricted or unrestricted public support, depending on the existence or absence of donor-imposed restrictions.

As of June 30, 2018 and 2017, more than 83% of the value of the trust can be derived from market information. Less than 17% of the trust value is associated with alternative investments, estimates for which are provided by the fund managers retained by the trustees. The valuation methods for the alternative investments may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while CARE USA believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Charitable lead trusts

Charitable lead trusts provide income payments to at least one qualified charitable organization for a fixed term of years, the lives of one or more individuals, or a combination of the two, after which, trust assets are paid to either the grantor or one or more non-charitable beneficiaries named in the trust instrument. Temporarily or permanently restricted contributions revenue is recognized at the date each

CARE USA and Subsidiaries  
Consolidated Financial Statements

agreement is established, based on the terms, and net of the liability recorded for the present value of future payments to be made to donors and other beneficiaries. Changes in value resulting from changes in actuarial assumptions and accretion of the discount are reported as increases and decreases in the respective net assets class.

Other includes charitable remainder trusts, pooled income funds and bequests.

#### Charitable gift annuity payable

Charitable gift annuities obligations are included in liability for split interest agreements on the consolidated balance sheets. Donors have contributed assets to CARE USA in exchange for a promise by CARE USA to pay a fixed amount or percentage of assets contributed to the donor or individuals designated by the donor during the annuity recipient's lifetime. Under the terms of such agreements, the assets received are recorded as assets and included in investments and the related annuity liability is an obligation of CARE USA. The liability is recorded at the present value of expected future payments based on Annuity 2000 table. The obligations have been discounted at rates ranging from 0.41% to 11.30%.

Charitable gift annuities are maintained in separate portfolios and are invested in accordance with applicable laws. CARE USA maintains assets sufficient to meet the annuity requirements stipulated by the various state laws. CARE USA is required to hold reserves related to the gift annuity program based on the laws of certain states, such reserves totaled \$12.1 million and \$12.4 million as of June 30, 2018 and 2017, respectively.

Private contributions revenue from split interest agreements was \$17.0 million and \$26.4 million for the years ended June 30, 2018 and 2017. The change in value in split interest agreements was a \$3.0 million and a \$6.9 million increase in value for the years ended June 30, 2018 and 2017, respectively.

## 6. Endowments

CARE USA's endowments consist of ten individual funds as of June 30, 2018 and eleven individual funds as of June 30, 2017 established for a variety of purposes. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions. As of June 30, 2018 and 2017, endowments of \$29.6 million and \$29.1 million, respectively, are included in Investments, at fair value on the consolidated balance sheets.

#### Interpretation of Relevant Law

CARE USA has interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, CARE USA classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

CARE USA and Subsidiaries  
Consolidated Financial Statements

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by SPMIFA. In accordance with SPMIFA, CARE USA considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- Duration and preservation of the fund;
- Purposes of the organization and the donor-restricted endowment fund;
- General economic conditions;
- Possible effect of inflation and deflation;
- Expected total return from income and the appreciation and depreciation of investments;
- Other resources of CARE USA; and
- Investment policies of CARE USA.

The changes in endowment assets for the year ended June 30, 2018, are as follows:

	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, beginning of year	\$ 10,395	\$ 18,722	\$ 29,117
Contributions received	–	5	5
Investment income	1,851	–	1,851
Net depreciation (realized and unrealized)	189	–	189
Total investment return	<u>2,040</u>	<u>5</u>	<u>2,045</u>
Appropriation of endowment assets for expenditure			
For unrestricted purposes	(619)	–	(619)
For temporarily restricted purposes	<u>(987)</u>	<u>–</u>	<u>(987)</u>
Endowment net assets, end of year	<u>\$ 10,829</u>	<u>\$ 18,727</u>	<u>\$ 29,556</u>

The changes in endowment assets for the year ended June 30, 2017, are as follows:

	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, beginning of year	\$ 7,488	\$ 18,733	\$ 26,221
Contributions received	–	136	136
Investment income	1,246	–	1,246
Net depreciation (realized and unrealized)	1,807	–	1,807
Total investment return	<u>3,053</u>	<u>136</u>	<u>3,189</u>
Appropriation of endowment assets for expenditure			
For unrestricted purposes	(1,198)	–	(1,198)
For temporarily restricted purposes	<u>(2,108)</u>	<u>(150)</u>	<u>(2,258)</u>
Other changes	3,160	3	3,163

CARE USA and Subsidiaries  
Consolidated Financial Statements

Description of amount classified as permanently restricted net assets and temporarily restricted net assets for endowments as of June 30:

	2018	2017
Temporarily Restricted Net Assets:		
The portion of perpetual endowment funds subject to time restriction under SPMIFA:		
Without purpose restrictions	\$ 1,539	\$ 1,265
With purpose restrictions	9,290	9,130
Total Endowment funds classified as temporarily restricted net assets	\$ 10,829	\$ 10,395
Permanently Restricted Net Assets:		
The portion of perpetual endowment funds required to be retained permanently either by explicit donor stipulation or by SPMIFA	\$ 18,727	\$ 18,722

#### Endowment Investment Policy

CARE USA has a spending policy specific to endowments, which is authorized by the Board of Directors and monitored by the Finance Committee. The policy states that CARE USA will annually allocate five percent of the three-year average of the fair market value from investment earnings to be spent on operations, unless otherwise specified by the donor. The objective of this policy is to maintain the purchasing power of the endowment funds held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return. Endowment fund assets include those assets of donor-restricted funds that CARE USA must hold in perpetuity and changes to the value of these assets. CARE appropriated \$1.6 million and \$3.1 million for the years ended June 30, 2018 and 2017, respectively.

If market value is less than its historical dollar value due to unfavorable market condition, CARE will not appropriate funds for spending until the investment accounts related to the endowment fund recover its losses. If a donor defines in the agreement that distributions should occur under the standard spending formula guidelines with no restrictions due to underwater amount, the donor's wishes will override CARE's spending policy and the full amount will be distributed.

The investment policy describes the objective for the fund and sets ranges for asset allocation. Asset allocations are determined in accordance with the purpose and restrictions of each specific fund. The objective of the Endowment Fund is to earn the highest possible total return consistent with a level of risk suitable for these assets. At a minimum, long-term rates of return should be equal to an amount sufficient to maintain the purchasing power of these assets and provide necessary capital to fund the spending policy.

Actual returns in any given year may vary. In light of this requirement, the portfolio is constructed using a total return approach with a significant portion of the funds invested to seek growth of principal over time. The assets are invested for the long term, and a higher short-term volatility in these assets is to be expected and accepted.

CARE USA and Subsidiaries  
Consolidated Financial Statements

The following is a summary of the asset allocation guidelines, with allowable ranges for each asset type in 2018 and 2017.

Asset Class	2018			2017		
	Minimum	Maximum	Target	Minimum	Maximum	Target
Fixed Income	25%	50%	35%	35%	50%	40%
Equity	50%	75%	65%	55%	65%	60%

## 7. Fair Value Measurements

CARE USA applies the accounting standard ASC Topic 820, Fair Value Measurements and Disclosures that establishes a framework for measuring fair value. Fair value is defined as the price that would be received for an asset or paid to transfer a liability (an exit price) between market participants at the measurement date. The standard establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are as follows:

Level 1: Inputs that reflect unadjusted quoted market prices for identical assets or liabilities in active markets that are accessible at measurement date.

Level 2: Inputs other than quoted prices that are either directly or indirectly observable for the asset or liability, including inputs in markets that are not considered to be active. Level 2 inputs may include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets in markets that are not active, observable inputs other than quoted prices for the asset or liability and inputs derived principally from, or corroborated by, observable market data by correlation or by other means.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the asset or liability. Unobservable inputs are used to measure fair value to the extent that observable inputs are not available.

CARE USA uses the following methods and significant assumptions to estimate fair value for its assets measured and carried at fair value. There have been no changes in the methodologies from June 30, 2015.

- Trusts held by third parties are valued using significant unobservable inputs (Level 3). The need to use unobservable inputs generally results from the lack of an active market or marketplace. CARE USA's Level 3 interest in trusts held by third parties includes both perpetual and non-perpetual trusts.
- Perpetual trusts are recorded at fair value based on a market approach of CARE USA's interest in the fair value of the underlying trust assets. Non-perpetual trusts are recorded at estimated fair value based on the present value of CARE USA's estimated future cash flows from the related trust. Future cash flows are based on an income approach (present value techniques) using internally developed models. Assumptions are made regarding the expected rate of return on the investments in the

CARE USA and Subsidiaries  
Consolidated Financial Statements

trust, the discount rate, and expected mortality of the individual(s), if the termination of the agreement is dependent on life expectancy. An expected rate of return on the investments in the trusts is estimated using historical investment returns for various relevant market indices for the estimated asset allocation of these trusts.

- Other fixed income investments include AAF debt and equity investments in five and ten low income financial institutions as of June 30, 2018 and 2017, respectively, which extend credit to small and micro enterprises and low-income populations in Sub-Saharan Africa. The original tenor of the debt investments ranges from 9 to 24 months, with a weighted-average original tenor of 15 months. As of June 30, 2018, the weighted-average remaining term was six months. The promissory notes are unsecured notes bearing interest at rates ranging from 6.5% to 7.0%, with a weighted-average rate of 6.75%, and maturing at various dates through December 2018. As of June 30, 2017 the weighted average remaining term was six and half months. The promissory notes were unsecured notes bearing interest at rates ranging from 6.0% to 7.0%, with a weighted-average rate of 6.25%, and maturing at various dates through December 2018.
- To estimate the fair value of AAF investments, various factors are analyzed to determine the appropriate discount yield rate, including, but not limited to, the portfolio company's historical and future financial and operating results, payment history, sovereign and credit rating.
- AAF investments were \$6.1 million and \$11.0 million as of June 30, 2018 and 2017, respectively. \$6.1 million and \$9.3 million of the AAF investments were reported as Level 3.

The following table presents the assets measured at fair value on a recurring basis as of June 30, 2018:

	Level 1	Level 2	Level 3	Fair Value Measurement
Investments

	\$ 67,764	\$ 53,701

12. Defined Contribution Plans

CARE USA has a defined contribution plan under Internal Revenue Code Section 401(k) for employees that meet eligibility conditions. CARE USA contributes to a participant's account an amount equal to 4% of the participant's gross salary and matches up to 4% of a participant's contribution. The plan allows employee after-tax contributions. Employer contributions for the years ended June 30, 2018 and 2017 were \$2.8 million and \$2.5 million, respectively.

Within the various countries in which CARE USA operates outside the United States, most employees are citizens of the host country. These employees are generally not eligible for the CARE USA defined contribution plan, but they are eligible for local government or CARE USA sponsored plans appropriate for that country.

CARE USA and Subsidiaries  
Consolidated Financial Statements

13. Commitments and Other Matters

As of June 30, 2018, CARE USA is obligated under non-cancelable operating lease agreements for warehousing, office space and staff housing at minimum rentals as follows:

Year	Amount
2019	6,006
2020	2,608
2021	1,221
2022	823
2023	104
	<u>\$ 10,762</u>

Total rent expense was \$12.0 million and \$12.9 million, respectively, for the years ended June 30, 2018 and 2017.

AAF has outstanding future commitments under foreign currency exchange contracts of \$2.9 million and \$6.1 million as of June 30, 2018 and 2017, respectively.

CARE USA maintained performance guarantees totaling \$8.5 million and \$11.7 million for the years ended June 30, 2018 and 2017, respectively, on behalf of CARE Country offices, other CI members or various restricted grants. All guarantees are foreign currency denominated and therefore subject to fluctuations in USD equivalent value. Expiration or cancellation of each guarantee is contingent upon fulfillment of the underlying terms associated with the guarantee.

CARE USA has committed to provide funding to CARE Peru in the aggregate amount of \$24 million. This commitment was to be paid from fiscal years 2012 through 2034 in accordance with CARE USA and CARE Peru framework agreement payment terms. The commitment is conditional upon CARE Peru meeting agreed-upon program expenditures, which has not occurred to date. CARE USA made cumulative contributions of \$8.0 million and \$6.9 million respectively, as of June 30, 2018 and 2017.

CARE USA gave a loan to the CARE International Revolving Fund. It is used by CARE International to advance money to other members. The direct loan to the CARE International Revolving Fund was \$1.6 million and \$1.5 million as of June 30, 2018 and 2017, respectively.

CARE USA and Subsidiaries  
Consolidated Financial Statements

#### 14. Contingencies

In the normal course of business, CARE USA is party to various claims and assessments. In the opinion of management, these matters will not have a material effect on the consolidated financial position, consolidated changes in net assets or consolidated cash flows.

Management is aware of approximately \$114,000 in disallowed costs as of June 30, 2018 resulting from various audits for the fiscal years 2008 to 2012, which is currently under appeal. USAID is reviewing supporting documentation submitted by management to clear these questioned costs. CARE USA had \$57,000 and \$743,000 accrued for questioned and disallowed costs as of June 30, 2018 and 2017, respectively. Based on prior experience, CARE USA believes that costs ultimately disallowed, if any, would not materially affect its consolidated financial position.

The Government of Bolivia has served CARE USA with tax claims of approximately \$21.8 million for the commercial sale and distribution of commodities during the calendar years 2002 – 2007. CARE USA has filed lawsuits in Bolivia contesting the validity of these claims. A lower court ruled in CARE USA's favor on two lawsuits. The Supreme Court in Bolivia, the highest court, affirmed one of the lower court decisions in July 2016 and sent the other case back to the lower court. Although CARE USA no longer has operations in Bolivia, the outcome of this matter is currently not determinable, and management is monitoring the situation closely. No definitive estimate can be made of the potential liability.

#### 15. Subsidiary Information and other required disclosures

Consolidated entities include:

- Access Africa Fund, LLC (AAF) is a non-exempt, majority owned subsidiary operating with dual investment objectives to enable sub-Saharan micro-finance institutions to expand financial services by making debt and equity investments. CARE USA owns 91% of the class A capital stock. AAF will end its operations on December 31, 2018 after fully satisfying its debt.
- CARE Enterprises, Inc. (CEI) is a non-exempt subsidiary launched in 2013 that invests in for-profit, financially viable ventures that alleviate poverty by creating dignified employment and access to markets. For-benefit describes those business ventures that aim to earn a profit while delivering on a social mission. In July 2018, CEI changed its name to CARE Social Ventures.
- CARE Action Now (CAN) is a related but separate 501(c)4 organization operating exclusively for the purpose of educating the public and influencing legislative, executive, and judiciary policy-makers on the appropriate and sustainable provision of development and humanitarian assistance to underprivileged people.
- CARE India Trust (CIT) is a wholly owned non-profit subsidiary operating in India. It is primarily engaged in administering health and nutrition programs funded by the Indian government.
- MOFAD is wholly owned non-profit subsidiary in Afghanistan that is currently non-operational.

CARE USA and Subsidiaries  
Consolidated Financial Statements

CARE USA and its subsidiaries have operations in developing foreign markets and may be subject to increased risks due to political and regulatory environments, and overall market and economic factors.

Loan proceeds are used primarily for lending to microfinance institutions. On December 16, 2011 AAF entered into a seven-year \$20.0 million Loan Agreement with the Overseas Private Investment Corporation (OPIC), a division of the US Government to fund new portfolio debt investments. AAF had outstanding balances of \$3.8 million and \$9.2 million under the credit facility as of June 30, 2018 and 2017, respectively. The promissory notes bear current interest between 1.67% and 2.52% per annum payable, with the principal payment due in full by November 20, 2018. For the year ended June 30, 2018 and 2017 AAF obtained a waiver from its lender to cure noncompliance with three financial ratio covenants.

MOFAD's total outstanding obligations associated with the Microfinance Investment and Support Facility in Afghanistan (MISFA) were \$1.1 million and \$1.2 million for the years ended June 30, 2018 and 2017. This loan is payable on demand and carries interest rate of 5.00%.

Minority interest in subsidiaries was \$278,000 and \$319,000 for the years ended June 30, 2018 and 2017, respectively.

CARE USA and Subsidiaries  
Notes to Schedule of Expenditures of Federal Awards  
For the Year Ended June 30, 2018

1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) summarizes the federal expenditures of CARE USA under programs of the federal government for the year ended June 30, 2018. Because the Schedule presents only a selected portion of the operations of CARE USA, it is not intended to and does not present the financial position, results of operations, or cash flows of CARE USA.

For purposes of the Schedule, federal awards include all grants entered into directly, and via pass-through, between CARE USA and agencies and departments of the federal government.

2. Summary of Significant Accounting Policies

For the purpose of the Schedule of Expenditures of Federal Awards, expenditures for federal award programs are recognized on the accrual basis of accounting. Negative amounts on the Schedule are adjustments to expenditures reported in the prior years.

Agricultural and other commodities are recorded as inventory when shipped to a CARE USA country office or held in storage in the destination country prior to distribution. Revenue and expense (program activity) are recognized when the commodities are distributed, on a first-in, first-out basis. Freight expense is recognized as expense when incurred. Agricultural and other commodities are recorded at an ascribed amount representing the market valuation placed thereon by the Commodity Credit Corporation (as an agency of the United States government). Donated ocean freight is recorded based on the carrier's bill of lading.

In FY18, the non-cash expenses provided to sub-recipients have been added to the Payments to Sub-recipients. The non-cash expense includes agricultural commodities and ocean freight.

3. Indirect Cost Rate

CARE did not elect to use the 10% de minimis cost rate permitted by the Uniform Guidance.

## **Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

Management and the Board of Directors  
Cooperative for Assistance and Relief Everywhere, Inc.

We have audited, in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Cooperative for Assistance and Relief Everywhere, Inc. and subsidiaries (CARE USA), which comprise the consolidated balance sheet as of June 30, 2018, and the related consolidated statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated November 16, 2018.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered CARE USA's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of CARE USA's internal control. Accordingly, we do not express an opinion on the effectiveness of CARE USA's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether CARE USA's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **Report of Independent Auditors on Compliance for the Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance**

Management and the Board of Directors  
Cooperative for Assistance and Relief Everywhere USA

### **Report on Compliance for the Major Federal Program**

We have audited Cooperative for Assistance and Relief Everywhere USA's (CARE USA) compliance with the types of compliance requirements described in the US Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on the CARE USA's major federal program for the year ended June 30, 2018. CARE USA's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### ***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for the CARE USA's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about CARE USA's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of CARE USA's compliance.

#### ***Opinion on the Major Federal Program***

In our opinion, CARE USA complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2018.

### **Report on Internal Control Over Compliance**

Management of CARE USA is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered CARE USA's internal control over compliance with

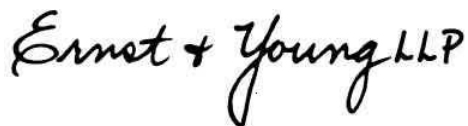

the types of requirements that could have a direct and material effect on its major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for its major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of CARE USA's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
